THE PELIKAN HUB – A FASCINATING EVENT TURNS INTO A SUCCESS STORY!

“ global  
CONNECTIONS  
PRODUCING real  
CLOSENESS!

Jana Jegella, Global Product Manager Fine Writing Instruments

AFTER TAKING A TWO-YEAR BREAK, OUR INTERNATIONAL PELIKAN HUB EVENT RETURNED ONCE AGAIN IN 2022. THE HUBS HAVE BEEN GROWING IN POPULARITY AND THIS YEAR SAW MORE ATTENDEES THAN EVER BEFORE, A SIGN THAT OWNERS OF PELIKAN WRITING INSTRUMENTS WANT TO MEET EACH OTHER AND TALK IN PERSON. THE THINGS THAT HAPPEN AROUND THE WORLD FOR THIS EXCEPTIONAL EVENT HAVE A PARTICULAR MAGIC ABOUT THEM. PEOPLE HAD TO WAIT LONG FOR IT, THOUGH THAT MADE THE CELEBRATION ALL THE MERRIER.

The fans present their treasures. They are marveled at, and some people even take hold of them eagerly to try writing with them. A stage is given to rare Pelikan fountain pen editions, carefully guarded heirlooms, and proud first purchases; each writing instrument is dutifully stored in a leather pouch. The owners of these pieces share their knowledge about the special aspects of these individual editions with passion. The event provides an ideal setting to delve into their fascination with nib-based writing and premium Pelikan inks. For writing fans, the Hub is not just a meeting of the like-minded. It is an inspirational intermingling full of emotion and enthusiasm. These people are 100% Pelikan fans!

Pelikan Hubs attract a large amount of attention and connect handwriting enthusiasts across national borders. The community is linked together globally and grows with every year that passes. Beginning with the first Hub event in 2014, which counted roughly 900 fans from Sydney to Seattle, this had grown to 6,138 participants worldwide by November 2022! Organized by fans, for fans, on a single day at 6:30 p.m. local time. And it works very well.

The fans create an exceptional atmosphere with their love of handwriting. There is an exhilarating dynamism that is reflected among the passionate community. We have captured some of it here to share with you – the statements are authentic and have a complexity that leaves a lasting impression.

### Guarded Treasures

The private collections of fine writing instruments are stored cautiously as if they were in a treasure chest.

THERE WAS A RUSTLE IN THE AIR – THE MOOD UNABLE TO BE TOPPED. OUR COMMUNITY BROUGHT WITH IT A GREAT DEAL OF ANTICIPATION AS IT ARRIVED AT THE PELIKAN HUBS, THE FIRST ONES TO TAKE PLACE IN PERSON AGAIN AFTER A TWO-YEAR BREAK. WE FELT IT, TOO: BEING WITH EACH OTHER IN PERSON IS ESSENTIAL AND STRENGTHENS THE LINKS BETWEEN THE FANS EVEN MORE. HERE ARE A FEW MUSINGS WHICH SPEAK FOR THEMSELVES!

**” PETER HOTZAN**  
What delights me most of all about the Pelikan Hub is the dialog with like-minded people. I am more of a collector than a writer, which is why the 200 series is extremely appealing to me. The writing instrument that captivates me the most, however, is the Toledo. It is the Holy Grail!

**” DEEPAK DESHPANDE**  
What I like most about the Pelikan community? The enthusiasm. The attendees at the Hub were eager! The wide selection of pens and inks that other fans bring with them is inspiring to me.

**” ELSE MARIE LEUTHARDT**  
I have been a Pelikan fan for 25 years. I own 48 Pelikan writing instruments and 24 of them are from the 200 series. I think they are wonderful! The idea of meeting the community across the world at the same time is fantastic.

**” MANUEL BAUZAN PEREZ**  
The Pelikan brand has a very strong eye for quality which can be felt in every respect. The greatest experience for me at the Hub? All the attendees bringing their own personal story about what connects them to fountain pens and writing.

**” NORBERT BLANK**  
I really like the worldwide enthusiasm for the Hub and the friendly exchange with the community, and what really impresses me is the craftsmanship behind the fine writing instruments. Whether on postcards or in the office, I love to write with a fountain pen.

# Classic. COLOR. Cool.

### COOL COLORS

Think colorful thoughts: Writing fans who are young or young at heart love the choice of marvelous colors in the Classic series!

THE CLASSIC SERIES OFFER AN EXCITING, COLORFUL ENTRY INTO THE WORLD OF FINE WRITING INSTRUMENTS. SOMETHING THAT PASSIONATE COLLECTORS AND PELIKAN FANS GET PARTICULARLY EXCITED ABOUT IS THE CLASSIC SERIES THAT MATCHES THE EDELSTEIN INK OF THE YEAR. A NEW, LIMITED EDITION THAT IS STYLISH AND SPECIAL, AND PARTICULARLY DESIRABLE AS A SET.

### AN ELEGANT FINISH

The various Classic series are characterized by fine decoration and an unmistakable beak-like clip. The stainless-steel nib and rings on the 205 series have a high-sheen polish. The 200 models offer an elegant alternative to the glossy silver edition, with gold-plated ornamentation and a gold-plated, stainless-steel nib – all with a 24-karat finish. The pen pictured to the left is the Classic M 205 Duo Highlighter.

### SELF-POLISHING SURFACE FINISH

The premium, high-grade resin has a high-sheen polish while the surface is even self-polishing. Each movement makes the writing instrument shine even more. If the decision falls in favor of a marbled writing instrument, the lucky owner will have an individual color scheme in his or her hands, made from a single piece of high-quality acrylic in Pelikan's own color composition.

### GOLD-PLATED NIB

The stainless-steel nib in the Classic 200 series has a 24-karat gold plating. It glides across the paper softly to enable a gentle writing experience. It is something that many Pelikan fans swear by.

## CARTRIDGE fountain pens

*for on the go*

With the two different filling mechanisms offered by our Classic series, handwriting fans will have everything that the heart desires. Handwriting fans can choose a piston filling mechanism, which suits anyone who loves filling their writing instrument directly from a bottle of ink. Alternatively, we also offer a cartridge filling system for those on the go or traveling.

The cartridge containing the Edelstein Ink or a converter can be swapped out in the blink of an eye; it is even possible to change the ink color. There are many different color nuances to choose from and they add a brilliant touch to every word written!

The pen pictured here is the P 205 cartridge pen in classic black with glossy silver decoration. This decoration is also available with a gold plating.

### SPECIAL EDITION: APATITE SET

The 2022 Ink of the Year is a turquoise-blue beauty which pays tribute to the "apatite" gem. Available in a set with a writing instrument in a matching color, it is a majestic must-have item that many Classic fans will have boundless desire for!

Edelstein®  
INK OF THE YEAR

THE WORLD IS SO BIG AND COLORFUL. WITH OUR ANNUAL RELEASE FROM THE EDELSTEIN INK COLLECTION, WE MAKE IT EVEN MORE ELEGANT:

Every year, Pelikan amazes the handwriting world with a special color for the limited-edition Edelstein Ink of the Year. The choice of color is based on the real desires that customers have expressed. We collected their color suggestions in a large online gallery and, together with our ink fans, selected the favorites.

The color nuances always match the shade of a particular gemstone, which provides the name for the ink and serves as the inspiration for it. The ink formula developed exclusively for the Edelstein Ink Collection contains premium color pigments as well as a special ingredient for an even softer feeling while writing. Combined with the attractive bottle devised by a special glass designer, the Edelstein Ink of the Year is the crown jewel for a prestigious and joyous handwriting experience.

The 2023 Edelstein Ink of the Year is an inspiring powder pink – a homage to the rose quartz gemstone. This overview of all color tones will make you want to pull out a pen straightaway!

# TOLEDO® AN ARTWORK in Spanish style

PREMIUM

Pelikan 

*Whoever owns a Toledo writing instrument possesses a work of art and a small piece of history.*

The art of Damascus patterns is thousands of years old. It comprises an elaborate method of applying ornamentation to steel or iron by impressing a thin gold film onto the surface. This sophisticated technology was brought to Spain by Arab settlers, where it was perfected over centuries, especially in the city of Toledo.

Pelikan commenced honoring this Damascus patterning technique for its model "Toledo" as early as 1931. This artwork is so highly coveted that it has continued to spread its magic for decades almost unchanged. Today, the decorative barrel is produced from a single piece of 925 sterling silver. Once the barrel has received multiple, special treatments, the motif is applied using a layer of gold. In the next step, the motif is etched on by hand, with the filigree detail giving the motif a life of its own.

Each Toledo writing instrument is a unique piece manufactured in Germany.

As a result of the taxing craftsmanship required, only a maximum of 50 instruments per month can be made. Every one of them is a great masterpiece in itself, and a small piece of history.

GOOD TO  
*know!*

The Toledo motif is damascened based on ancient craftsmanship and perfected by hand by a goldsmith in Germany.

SOUVERÄN®

PREMIUM

Pelikan 

## A WORLD-FAMOUS CLASSIC

The year 1950 is when our Model 400 was born. Even today, this classic with a black-and-green pinstripe sleeve is still considered a symbol of the Pelikan brand worldwide. It is our brand ambassador and our company's flagship product.

In the 1980s, the series was christened the Souverän®, marking the beginning of the standalone Souverän® brand. However, people often refer to it by its colloquial name "Stresemann" after the pinstriped suits worn by the German Foreign Minister of the same name in the 1920s. This nickname is still in use internationally and will likely remain so, too.

The fountain pen became established over time, taking many variations. Great caution is applied to the ongoing development of the design and technology, since the Souverän® has always been a simple, enduring companion that is appreciated just how it is. We are extremely proud of our stylish creation having aroused endless desire for four decades now. Of having achieved sovereign status.

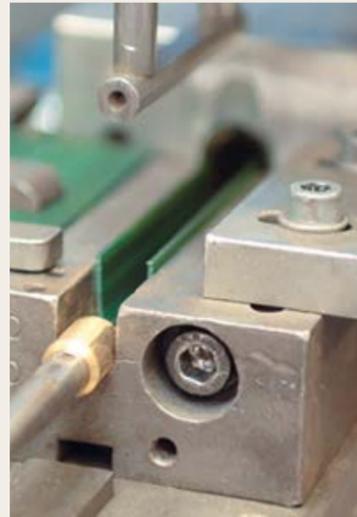

In 1929, Pelikan was the first company in the world to patent a piston filling mechanism. This technology uses two different screw threads on the inside of the fountain pen to ensure that the spindle inside moves more quickly than the end piece of the barrel. As a result, it is very quick and easy to refill the pen.

## MADE TO MEASURE BY THE MASTERS

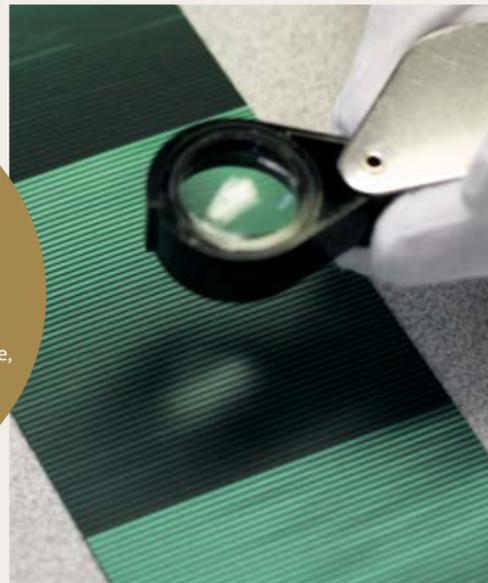

The production of the Souverän® barrel is subject to an elaborate process. The typical, striped material is made out of cotton based on a formula developed specially for Pelikan. It takes months until the block providing the stripes is finished, whereupon the tailor-made plating is curved and cut into a contour using a natural diamond. The characteristic double rings are then integrated into the cap and barrel with the utmost precision, making sure that the transition between the materials is almost seamless. The writing instrument is polished until it reaches a brilliant luster.

The famous beak-like clip and Pelikan cap are placed on top, forming the crown of the Souverän®. Writing instruments of various sizes are created to ensure a product completely individual and suitable for your personal preferences.

**GOOD TO know!**  
Hand-selected, unique pieces: The design of the Souverän® is unique, and every fine, connected pinstripe on the material shines in individual appearance.

## SOUVERÄN® WHITE COLLECTION

Our cheery Souverän® color variations have an air of elegant lightness, which is portrayed very well by these two Special Editions from our White Collection. The Souverän® 405 Silver-White is a jewelry-like product in Pelikan's range which stands out for its stylish purism. The bright, silver sheen underscores this elegant interpretation of our Souverän® classic.

STRESEMANN®

PREMIUM

Pelikan 

## A KEY PERSONALITY

Germany's foreign minister during the 1920s, Gustav Stresemann (born 1878, died 1929), received the 1926 Nobel Peace Prize together with Aristide Briand for his Franco-German reconciliation work. On top of his outstanding political career, Stresemann was also known for a particular suit design, a suit that was ideal for official appearances, yet that could also be worn casually in the office.

Stresemann frequently wore this suit, made of a refined, pinstriped fabric, which in the end became legendary. At the same time, Pelikan and its pinstriped fountain pens were beginning to take the world by storm and people came to refer to the latter as "Stresemann" too, consequently gaining a personality of their own. Back then, we offered our Souverän® classics mostly in a black/green-striped design.

Today, both the suit as well as these fountain pens bear Stresemann's name. To pay proper tribute to this legend, Pelikan has now officially christened the latest addition to its collection, the Souverän® with stylish anthracite pinstripes, the "Stresemann."

*His particular suit design was mainly characterized by pinstriped trousers. These trousers form the basis for the tribute the collection is officially making with the title "Stresemann."*

Every word written is given a particular flourish thanks to the precision-manufactured stainless-steel nib. For passionate collectors who are young or young at heart, the annual special edition is a major highlight. These people love color.

*The M 200

# CLASSIC

ELEGANCE

## CLASSIC EYE-CATCHER

The Classic series offers joyous and surprising colors, from classic jet black to light pastel green combined with white, or even multiple marbled colors. Moreover, an exceptional series of writing instruments is created each year to match the individual Edelstein Ink of the Year. The set consisting of this fountain pen and the matching Edelstein ink is always certain to captivate Pelikan fans each time.

Pelikan enjoys worldwide renown for its fountain pens. In response to the demand of many customers, we have additionally fitted our Classic 200 series with the practical cartridge filling system. The quick change of cartridge is particularly handy when on the go or traveling. Market needs are always changing, and so are we.

GOOD TO  
*know!*

Classic series are available with highlight parts in a silver or gold color. All writing instruments are of the quality expected of a product  
MADE IN GERMANY.

## TWO FILLING SYSTEMS

Our Classic Series 200 comes featuring two filling systems: The piston filling mechanism and, as an alternative to this, the cartridge filling system. The classic piston mechanism allows you to fill the pen directly from an ink bottle and can be called Pelikan's typical fountain pen mechanism for high-quality writing instruments.

We also offer a fantastic product variant for fans of cartridge filling systems. You can refill your fountain pen or change its writing color by swapping the cartridge. The swap can be done quickly: Simply unscrew your writing instrument behind the grip and change the cartridge.

As a result, you can celebrate the pleasure of writing imaginatively using both filling systems.

### THE CLASSIC CARTRIDGE FOUNTAIN PEN

For all fountain pen lovers, we offer the Classic Series with two filling systems: the M 200 and the M 205 comes with the differentiated piston mechanism, the P 200 and the P 205 with a cartridge filling system. The Classic Series 200, just like the M 200 and the P 200, comes with gold-plated ornamentation. The stainless steel nib is gold-plated as well. In addition, we offer the fountain pen M 205 and P 205 with silver ornamentation and a high-polished stainless steel nib. All series are available in nib widths EF, F, M, and B.

The cartridge fountain pen is available in a silver-colored, highly polished version under the number P 205.

## HIGH LIGHTFASTNESS

Tinte 4001  
Blue black  
page 97

### ● 4001® Blue black

Our 4001 ink in a blue/black tone can be categorized as relatively lightfast. It is an iron gall ink, which means that it is far more permanent than, for example, the 4001 in Royal Blue or Brilliant Black.

Thanks to the special ingredients in the formula, it can be used in both piston and cartridge fountain pens. Over time, the color of the ink changes from blue/black to gray, though the ink will always remain visible.

During development we made sure that the concentration of iron gall is low enough to avoid corrosion. Consequently, the ink does not decompose the paper used.

The flow of ink and width of the nib determine the thickness of the stroke made on the paper. The absorbing capacity of the paper also determines how much ink can be applied. One factor that also plays a very decisive role is the amount of time that the ink has been exposed to the light for.

This ink is not document proofed. We recommend “Fount India” to all customers seeking an ink that is even more permanent than our 4001.

4001 | Blue black

### ●● Fount India®

This ink is opaque and lightfast, forming part of our document-proof category of inks. Fount India can be used in piston fountain pens or, with a converter, in cartridge pens too. Carbon pigment is a component of the Fount India formula. As a result, this ink possesses almost the same level of lightfastness as our Scribto! ink.

What is important, however, is that the ink does not dry out or dry up completely in your fountain pen. To avoid this happening, you should regularly rinse out your pen with cold water. [pelikan-passion.com/fount-india](http://pelikan-passion.com/fount-india)

## DOCUMENT-PROOF AND NONFADING

### ●●● Scribto!

The most durable ink in our range is Scribto!. It provides good coverage and is lightfast as well as being non-fade, so that this ink can be categorized as document-proof. Due to its composition, which allows it to achieve such a high level of permanence, it is unsuitable for fountain pens. We mainly recommend Scribto! for use with dip or nib pens.

### ●●● Ballpoint refills

Our ballpoint refills in blue, black, and red colors satisfy all the criteria imposed on document-proof inks. These criteria include: smudge resistance, erasability, lightfastness, and water resistance. The special ballpoint paste is fast-drying, cannot be modified, and cannot be removed without leaving a trace. The ink also remains legible after a defined period of exposure to sunlight, which means that it cannot fade beyond a certain degree. If the ink comes into contact with water and runs, the lines of the writing still remain visible. The paste for ballpoint refills 337 and 38 is document-proof under ISO 12757-2.

# COLLECTORS' BOX

## AN ELEGANT STORAGE SOLUTION

Once bitten by the collector's spirit, it is very difficult to stop – and that is something any collector will confirm. Soon, however, there comes a point where a solution must be found to store all the acquired treasures. Pelikan has for this reason created a collector's chest that satisfies every need while being stunning to look at and convenient to use.

The collector's chest provides space for 24 writing instruments, with even the large Souverän® M 1000 fitting inside perfectly. The frame is made of durable MDF finished with a high-quality wooden veneer and a protective, transparent varnish. To avoid scratching the writing instruments stored inside, the pen holder inserts are covered in artificial leather in a cream color.

There is a transparent panel made of safety glass that allows for an admiring gaze at the collection at any time. The plastic feet ensure that the chest can also be placed on more sensitive surfaces. The Pelikan logo can be found on the front as well as on the back.

- Quintessentially Pelikan two-tone gold nibs: silver and yellow gold. The nib is finished with a rhodium plating, which means that a thin layer of rhodium (a platinum material) is applied to it. The areas that were covered up beforehand maintain their yellow-gold appearance.
